1. Rockbuster Stealth LLC – Rockbuster Stealth is a movie rental company that once had stores around the world. Rockbuster is now planning to use its existing movie licenses to launch an online video rental service. The database has information on customers, stores, staff, films, payments and addresses. This information can be analyzed to help Rockbuster Stealth look for insights to help the company plan for launching its own video streaming service.

Entity Relationship Diagram

Fact Tables

Payment:

Columns

Column	Data Type	Description
Payment_id	Integer	Identifier for payment
Customer_id	Smallint	Identifier for customer
Staff_id	Smallint	Identifier for staff
Rental_id	Integer	Identifier for rental
Amount	Numeric	Amount of rental
Payment_date	Timestamp without time	Date of payment
	zone	

Links To

Table	Join	Description
Customer	Payment - customer_id = Customer - customer_id	Foreign Key link to customer table
Staff	Payment - staff_id = Staff - staff_id	Foreign key link to staff table
Rental	Payment - rental_id = Rental - rental_id	Foreign key link to rental table

Links From

The payment table doesn't link from any other table.

Column	Key type
Payment_id	Primary key
